JM JOINT MOBILITY[®]
CANINE FORMULA

The Power to Nutritionally Manage Your Dog With

Osteoarthritis

If your dog has lost the spring in his step, he may be one of the 20% of adult dogs who are affected by osteoarthritis¹. The first step toward helping promote long-term joint health and increased mobility is the innovative nutritional blend found in Purina[®] Pro Plan[®] Veterinary Diets JM Joint Mobility[®] Canine Formula, including a high level of long-chain omega-3 fatty acids and glucosamine to help support joint health.

Advanced Nutrition

High level of long-chain omega-3 fatty acids to help support joint health

A natural source of glucosamine to help support cartilage health

High protein-to-calorie ratio to help support lean muscle mass

- Reduces enzymes involved in cartilage breakdown
- Contains a unique blend of nutrients, including EPA, DHA, antioxidants, and a natural source of glucosamine
- Specially formulated for the growth of puppies and maintenance of adult dogs, including seniors
