CANINE FORMULA

The Power to Nutritionally Manage Dogs with
Cognitive Dysfunction Syndrome

Cognitive Dysfunction Syndrome (CDS) is an age-related disorder characterized by gradual cognitive decline. Clinical signs include disorientation, house soiling, anxiety, and changes in sleep cycles, activity or interactions with others.

Purina® Pro Plan® Veterinary Diets NeuroCare is enhanced with a unique blend of nutrients (arginine, EPA + DHA, antioxidants and B vitamins) and medium chain triglyceride oil to help nutritionally manage dogs with CDS.

Purina trademarks are owned by Société des Produits Nestlé S.A.
